

# CURRICULUM VITAE

## Reuben O. ALABI

Full-stack Web Developer

[reubenalabi2006@gmail.com](mailto:reubenalabi2006@gmail.com) | (+234)9034366844 | <https://www.linkedin.com/in/rubytech>

---

### PROFILE

---

Full-stack engineer with over a year of experience creating web applications. Highly driven and well-organized. Having expertise in JavaScript, Node.js and React. Competent at collaborating with designers and frontend developers to produce exceptional user experiences and web applications. Additional advantages include knowledge of Graphic Design. Has a proactive, self-motivated attitude to problem-solving, driven by a passion for continuous growth and learning to keep up with the newest trends and technology. I'm eager to help create cutting-edge Web apps and products.

**GitHub:** <https://www.github.com/ruby-tech1>

### SKILLS

---

**Languages:** JavaScript, React, Node.js, Express.js, MongoDB

**Scripting:** HTML5, CSS3

**Design:** User Interface/User Experience Design, Web Design, Product Design, Responsive Web Design, Prototyping, Mock-ups, Human-centered design

**Tools:** Figma, Visual Studio Code, Adobe Photoshop, and Adobe Illustrator

**Package managers:** npm, yarn

### WORK EXPERIENCE

---

#### THEREALME

*Sep 2023 - Present*

**Position:** Co-Lead Graphic Designer

- Designed engaging flyers and posters for various programs and activities posted on social media aimed at educating and empowering students and youth in Nigeria.
- Collaborated closely with fellow design team members and the content team to create visually appealing graphical assets that effectively communicated THEREALME message.
- Utilized Adobe Illustrator and Adobe Photoshop to create professional and impactful designs which played a key role in enhancing the THEREALME's branding and visual identity through consistent and compelling design work.

### PROJECTS

---

#### Portfolio Website

- Developed a portfolio web app with the use of HTML, CSS, Vanilla.JS, and NodeJS.
- The application allows the user to send emails to the individual represented on the site.
- Implemented features such as sending emails using API, and data storage using MongoDB.

#### Quiz System

- Developed a Quiz System web application that allows users to create, deploy, and attempt quizzes using React.js, Node.js, MongoDB, and Express.js.
- The application includes separate portals for teachers (to create quizzes) and students (to take quizzes).
- Implemented features such as authentication and role-based authorization, User authentication, question management (creation, updating, and deletion), grading and report generation, support for image-based questions,

timed quizzes with the valid period.

- Demonstrated proficiency in full-stack web development and agile methodologies.

### **Jobster**

- Developed a job application management web application for job seekers that allows users to manage job application and their various stages using React.js, Node.js, MongoDB, and Express.js.
- The application allowed user to create a job application with the necessary details and edited the status as needed
- Implemented features such as authentication, REST API, CRUD operation and data storage with MongoDB.

## **EDUCATION**

---

### **B.Sc(Hons) Software Engineering**

**In progress**

Babcock University, Ilishan-Remo, Ogun State

### **Senior Secondary Certificate**

**2016 - 2022**

Babcock University High School, Ilishan-Remo, Ogun State

Best Graduating Student in Data Processing

## **PROFESSIONAL MEMBERSHIPS / VOLUNTEERING**

---

Google Developer Student Club

September 2022 – Present

Ingressive For Good

November 2023 – Present

## **CERTIFICATION / TRAINING**

---

Master Course in Web Frameworks (Scrimba)

HTML, CSS, and JavaScript for Web Developers Certification (FreeCodeCamp)

Backend Development and APIs (FreeCodeCamp)

## **REFEREES**

---

**Dr. Seun Ebiesuwa** (Ph.D, MCPN, MNCS, MIEEE)

Dept. of Computer Science,
